**A Prophetic Vision (Sweden)**

(April 2009)

I was asking the Lord one morning why that in Sweden people could pray so much and have so little result? Immediately, the Lord gave me a vision of two feet. At first, one foot took one step forward, and then both feet took two steps backward. I asked the Lord for the meaning and He told me that this is the Christian Church in Sweden. He said that there are people that pray, but then they go and drink coffee and talk about how they do not agree with what the pastor is doing, or where the direction of the ministry or church is going.

So the people in Sweden may pray some, but do more damage against the Kingdom of God with their unruly tongues and words than they do good with their prayers.
